

CLAIMS :

1. A litter box for dogs having a container part for holding litter material and having the following improvement:

a semi-permeable cover configured and sized to be removably fitted on four walls delimiting said container part;

said semi-permeable cover made of a partitioning material that is tough and durable while offering permeable properties adequate for passing liquids but not necessarily solid wastes or even said litter material in order to fully isolate a dog from said litter material;

said semi-permeable cover comprised of a solid frame within which said partitioning material is framed.

2. A litter box for dogs as in claim 1 wherein

said semi-permeable cover has a fastening means to fasten it to said container part.

3. A litter box for dogs as in claim 2 wherein said fastening means is selected from the group comprised of but not limited to fastening clips.

4. A litter box for dogs as in claim 1 further comprised of a handle.

5. A litter box for dogs as in claim 2 further comprised of a handle.

6. A litter box for dogs as in claim 3 further comprised of a handle.
